25X1A	1.	Comment, A source in Fuerstenwalde reported to the Gds Necz Div which had been assembled for practition training grounds in January 1953 returned to be	ices at the Liebernea		
		troop training grounds in January 1953 returned to Fuerstenwalde on 6 February and that the troop training grounds was occupied by only a small guard detail after that date. It is possible that the troops observed prior to that date belong to units in Fuerstenwalde; for example, the bridge building column may belong to the 122th (?) Gds Engr En. Only units of the division from Frankfurt/Oder probably practiced at the troop training grounds after 6 February.			
25X1A	2.	Comment. There was reason for believing that units of the 3d Engr Regt of the Fourth Gds Necz Army were in Beeskow since January 1953, probably for practices on the Oder-Spree-Canal northeast of			
25X1A		February 1953, also reported the return of units whi	although on 6 ich probably . Other shivments		
25X1A	3.	Comment. Other information indicated that the of the Third Shock Army in the area scutheast of Schuntil 14 February. Example by return shipments of the units involved at headquarters units of the Third Shock Army and the Although the present report indicates that the exercises southeast of Schwerin only on 9 and 10 February the 94th Gds Mtz Rifle Div were even entrained for the Schwerin only on 12 February. The exercises may, lasted from about 10 to 14 February. They probably if of the IX Mtz Rifle Corps as well as the units mentishipment for Doeberitz which was observed along with at the end of the exercises cannot be accounted for.	everin lasted as indicated for uch as the IV Arty Corps. cises began on its went to the IV. Tank units of these exercises therefore, have involved elements tened. The AAA
